Did 60 Miles in One Lap.

His prowess as a walker was the subject of Jenkins's boasting one day.

"One holiday," he said loudly, "I selected a course measuring four miles over the country, and timed myself. The result was that in one hour I covered twelve miles in three laps."

He waited for the exclamations of amazement, which did not come. Instead, one of his listeners remarked in a broad voice:

"That's nothing special. I know a young lady who once did sixty miles all in one lap, and she would have returned in the same lap, only I got cramps so badly in the legs!"

Fall Opening

Days at Houghton & Simonds'—Presenting the Selected Fashions for the Autumn Season—Apparel, Fabrics and Accessories for Every Occasion

A Display which the Women of Brattleboro, and Those Within a Day's Journey, Cannot Afford to Miss

After the most careful planning—after a most painstaking search of the fashion markets—we've assembled a collection of Fall garments and other Fall merchandise that you will find utmost pleasure in viewing. The displays have been arranged so as to make it possible for you to view the full range of our carefully assembled Fall stocks in ONE visit. This once-a-season occasion will undoubtedly be taken advantage of by hosts of women who will readily agree with us that for beauty of the styles assembled and for complete stocks this exhibit will rival, if not surpass, our efforts of the past.

There's a marked difference in the styles for Fall. Radical fashions have disappeared. And yet the change from the preceding season is great enough to warrant you in making a special trip to the store to learn just what Fashion has decreed for the Fall of 1916. Aside from learning what the new fashions are like, our exhibit will help you to learn the character and cost of the various merchandise you will need for this season. Please feel that we want you to make leisurely inspection of our displays and stocks and extend to you a very warm, cordial invitation to visit the store on these important fashion days.

Of Importance to Stout Women

One of the greatest strides manufacturers have made for the Fall season is the correct designing of attractive styles for stout women. So great a demand has been created for ready-to-wear garments for stout figures that a number of firms have organized to create practical, fashionable styles for women who wear sizes from 42 to 54.

It will prove very interesting then to women who wear stout sizes to know that we have assembled an unusually broad collection of Fall suits, coats, dresses, waists, muslin underwear, petticoats and corsets in sizes to fit the woman who has always despaired of getting "something to wear" without the need of either making it herself or depending on the dressmaker.

Other Displays

All that is new in Dress Fabrics and Silks, Hosiery, Gloves, Ribbons, Neckwear and Bags.

Babies' Autumn Apparel, Children's Wear and Sweaters.

The New Fall Suits Are Particularly Pleasing

One important element in reference to the new suit fashions is that you need not worry as to whether the style garment you buy now will be worn later. Fashion authorities have co-operated to a greater extent this season than ever; and in consequence of which the beautiful, pleasing designs which have been created will continue throughout the season. This should be particularly interesting to the woman who wants to be sure that her Fall suit will have the correct fashion lines during the entire period she is to wear it. And, what is more, the Fall fashions in suits are designed along lines sure to meet with favor of the woman who demands absolutely correct fashions as well as the woman who demands a stylish suit at a modest cost. The care we've used in making selections is at once evidenced by the full, complete and satisfying showing ready for your viewing.

Prices Range from \$12.00 to \$60.00

Lovely New Blouses

Rarely have we seen so many cleverly designed models as you will find in the new Fall waists. The designers seem to have caught the spirit of the Fall fashions and have endeavored, it would seem to us, to provide styles that help enhance the beauty of the new Fall suits by the very simplicity and richness of the styles designed.

White Voile Waists

The passing of Summer has not affected the popularity of White Voile Waists: some of the loveliest we have ever had have been received for the Autumn Opening Displays.

Fashion and Desirability are Combined in the New Fall Coats

The great popularity of shirtwaists and separate skirts during the past season is being echoed for Fall wearing. In consequence, fashion has decreed that Fall coats are to be exceedingly popular. The designs are decidedly striking. Among the new features are the new wide collars, called "Shakespeare" collars, that may be worn flat or buttoned high around the neck. The coats are, as a rule, trimmed with fur and buttons. You will find the loose-fitting coat with flare bottom, as well as the coat semi-fitted. Quite a number of the new models have belts arranged in a very attractive manner—and this is particularly true of the manner in which the pockets have been arranged as well as their size. Needless to say that a satisfying assemblage is ready for your choosing.

Prices Range from \$8.98 to \$49.00

"Beautiful" but Faintly Describes the New Fashions in Fall Dresses

Not alone are the dress fashions beautiful, but there's an air of individuality to each and every one of them.

American designers have outdone themselves in creating and adopting fashions for the American woman. The fashions sanctioned by European masters have been intermingled with American ideas, and the result is a pleasing combination that is at once striking and artistic. The combinations of materials used and the manner in which the rich trimming ideas have been employed are distinctly new and out of the ordinary. The new Fall dresses will give you an added amount of pleasure and satisfaction. As we mentioned above, the range of styles is broad enough to meet whatever fashion idea you have in mind.

Prices Range from \$6.50 to \$35.00
